

modus

**April & April System**

— Sir Kenneth Grange & SmithMatthias

DESCRIPTION

April is a collaboration between Sir Kenneth Grange and SmithMatthias: An alliance of illustrious experience with the energy of youth. Characterised by a refined sculptural elegance, April has a feminine and slender profile offering incredible comfort and encouraging good posture, whilst retaining an extremely delicate silhouette. The fine details are distinct in the single, central pintuck, the notched oak leg and optional frame leg that envelops April's gentle contours.

MATERIALS

|            |  |
|------------|--|
| Frame      | FSC™ certified hardwood plywood                                    |
| Foam       | CertiPUR certified foam  |
| Upholstery | Available in a wide range of fabrics and leathers                  |
| Leg        | Die cast aluminium in powder coated finish or solid oak (upcharge) |
| Feet       | Nylon glide  |
| Power      | Optional undermounted power  |

## DESIGNER

— SIR KENNETH GRANGE & SMITHMATTHIAS

Sir Kenneth Grange is Britain's leading product designer, his prolific career spans over 50 years and he is responsible for designing some of the most iconic and familiar products and appliances that shape our daily lives. Kodak cameras, the silhouette for the Intercity 125 train, Kenwood food mixers, Parker pens, and the re-design of the London black cab are just some of his well-known designs.

In 1972 Grange, together with Alan Fletcher, Theo Crosby, Colin Forbes and Mervyn Kurlansky established Pentagram, a world renowned multi-disciplinary design consultancy. More recently, in the 1990s, Grange has produced distinctive designs that have become part of our landscape, from the Adshel bus shelter in 1993 to the Rural Post box for Royal Mail in 1998.

Grange SmithMatthias is a new collaboration of experience and youth. Sir Kenneth Grange is well known as a designer of many familiar products and Jack Smith who graduated from the prestigious Design Products course at the Royal College of Art in 2011.

## TIMBER LEGS

Solid oak

RAL9004  
Black solid oak

---

## MAINTENANCE

To keep April & April System looking their best we recommend regular, gentle vacuuming. Any spills should be immediately blotted with an absorbent cloth. Stains may be tackled gently with a soft cloth from edge to centre but please refer to the care instructions of each specific fabric, some fabrics will mark more easily than others. Any cleaning products must be used with care and in accordance with the manufacturer's recommendations.

Powder coated parts require regular, light dusting with a soft cloth or brush. Spills should be wiped as soon as possible and marks may be removed with warm soapy water and a gentle rub.

ENVIRONMENTAL INFORMATION

Our mission is simple, to create furniture of the highest standards in terms of design, quality and durability that enriches life today without compromising tomorrow. Our products are thoughtfully manufactured in the UK with respect for environmental limits and an understanding of the interconnectedness of a healthy economy, society and environment.

CERTIFICATION

The April sofa and April System are CertiPUR certified and are available with FSC certification on request.

## SUSTAINABILITY

### APPROACH

We take a broad and holistic approach to sustainability, considering every aspect of a product's footprint from embodied carbon, to wider impacts on ecosystems and society. Our Sustainability Policy, which can be seen on our website, targets six key areas: reducing Co2 emissions, protecting habitats and biodiversity, making healthy products, reducing waste, minimising our plastic footprint and people positive actions. We have an ethical purchasing and a social responsibility programme that has a particular focus on the designers and makers of the future.

Our furniture is hand crafted in Somerset using 100% renewable energy. We are a Carbon Neutral Plus organisation.

Our products can help gain credits under environmental assessments such as WELL, BREEAM, LEED and SKA rating, speak to our team about your sustainability goals at [sustainability@modusfurniture.co.uk](mailto:sustainability@modusfurniture.co.uk)

### DESIGN

We take a circular approach to product design, designing furniture that lasts and can easily be repaired and disassembled for multiple lives in use. At end of life, our furniture may be taken back for remanufacture and given a new lease of life. Materials and processes are carefully considered so that we can manufacture products with the lightest footprints.

### MATERIALS

Dematerialisation is a key consideration, we aim to create the best products from the fewest resources, using renewable materials or materials that are part of a continuous loop. We rigorously design out waste and limit and avoid the use of potentially harmful substances and the creation of VOC emissions, keeping our products as healthy as possible.

We use CertiPUR certified foam and EU Ecolabel approved, low VOC emitting, water-based lacquers. We hold FSC chain of custody certification and can offer over 90% of our products with FSC certification. We aim to use materials with the highest recycled content and those that can be readily recycled.

### PRODUCTION

All upholstery and joinery is manufactured in our Somerset factory using 100% renewable energy. Manufacturing in-house helps keep furniture miles to a minimum. We use a combination of digital technology and hand-crafted techniques to produce durable furniture of the highest quality.

For every ten products we pledge to plant a tree, reforesting once forested land with native, broadleaved species at our factory site in South Somerset and in our local area as part of our ReForest scheme, which will provide biodiverse habitats where wildlife can thrive, and capture carbon for years to come.

### PACKAGING & DISTRIBUTION

We aim to keep our plastic footprint to an absolute minimum across all operations of our business. Our most significant area of impact is packaging. We are phasing out all plastic that cannot be recycled, gradually replacing plastics with bio-based, compostable alternatives. If you would like your order delivered packaging free please talk to our team.

We are yet to transition to an all-electric fleet, until then we aim to minimise delivery miles by careful planning and we are choosing to offset these emissions with reforestation projects that are verified to the PAS 2060 standard.

### LIFE IN USE

We view our products as material banks for the future and would like to see them used over multiple lifetimes before being stripped into their individual materials for recycling. This means that we offer replacement parts wherever possible, including zip off fabric covers which may be bought separately. If you have any damaged part please take a photo of it and contact us to arrange a replacement.

### END OF LIFE & PRODUCER RESPONSIBILITY

In our journey towards a circular economy we have established an in-house remanufacturing centre, ReWork. If you have some of our products that you no longer use, please contact us to arrange collection and we will remanufacture each piece, retaining maximum value from every part.

### COMMUNITY & SOCIETY

We think carefully about whom and where we buy, and have a clear ethical purchasing policy in line with the ETI and UN Global Compact.

We carefully consider how we can benefit our local community and we have close links with local schools and colleges, donating scrap wood, board and fabric to the Design & Technology departments of three local schools and sponsoring Art & Design awards, young enterprise schemes and local arts organisations. We have active apprenticeship schemes, offer work experience placements and paid internships. We are proud to be an Accredited Living Wage Employer.
