

ZIPPO ZIPL1P

DESIGN:
PEDRALI R&D

Zippo Lounge is a one seat upholstered sofa conceived for waiting and relaxing moments in the office and contract environments. Like the same collection it has essential and fairly lines but the seat, the sides and the backrest are lowered. The seat, made of fire retardant variable density injected foam with elastic belts, gains depth to provide even more comfort. Along the perimeter runs a zip that outlines its shapes, so as to define its name. Steel tube frame Ø16 mm is white, black or aluminium powder coated and matched with the zip colour. It can be covered with fabric or simil leather.
